

• Welcome to the APEXROM (APR TOKEN) Ecosystem

With a team that has been monitoring the crypto sector for a long time, APEXROM (APR TOKEN) has conducted research and analysis on the problems and solutions in the crypto sector, completed R&D studies, and entered the industry. Our goals and roadmap as APEXROM (APR TOKEN) are to become a strong player in this sector with your support. Apr Token plans to provide transparency and ownership to its users in a 90% decentralized structure. Within Coin Management, burning strategies and inflation prevention systems have been prioritized to maintain its value every day.

Welcome to the future of the financial system with APR!

1. OUR VISION AND MISSION

APEXROM (APR TOKEN) has initiated studies to increase the available areas during research on the problems, solutions, and developments in the crypto sector and contributed to the growth of the ecosystem by expanding usage areas.

As a result of ecosystem development;

- Prz Games Platform (Nft, Metaverse, play to earn games)
- Watch and Win Advertising Sector
- Coin Prize (raffles, spin to win, luck and entertainment world)
- Metwex (cryptocurrency exchange)
- Voucher Product Marketing and Promotion System
- Trade signal Systems
- E-Commerce Integrations
- Technology Product Integrations
- Metaverse Platform

With our projects, APEXROM (APR TOKEN) has taken over an ecosystem and aims to increase the usable areas within this ecosystem by expanding and developing all structures and build a future of increasing value for its investors.

In the real trade sector, we will be involved in structures that include textiles, e-commerce, construction, tourism, and most importantly technology products and technological advancements.

4. APEXROM (APR TOKEN) INFLATION PREVENTION AND BURN STRATEGIES

Within the APR Token website, the stake module provides users with coin earnings while implementing rules to prevent the accumulation and inflation effects that may occur in the future. It has been safeguarded with rules to counteract these effects. A continuous burning programming has been implemented in the APR Token polygon network, ensuring a decrease in supply every day while maintaining its value.

5. APEXROM (APR TOKEN) USE CASES

Two main factors that add value to a coin have been identified as areas that APR Token should focus on:

- 1) Mass (Individuals holding the token)
- 2) Use Cases (Consumption Areas)

These two main headings are necessary for the appreciation and continuity of the coin's value. Taking these factors into account, APR Token offers users and token investors usability areas and will continue to add value to its token through continued consumption. Below, we are proud to present the available use cases to you.

Prz Games Gaming Platform : The Prz Games Platform aims to expand the circulation network and increase usability within web3 domains by combining games with metaverse, NFTs, and play-to-earn logic. While using the Prz Games gaming platform, users can play and earn without the need for any payment. Users can register on the website <https://www.przgames.com> and use Android and IOS-based applications and games. They can sell the earnings they obtain from games at any time and use them in the services provided within the application. As a company, we aim to provide our users with new opportunities in the game content we will develop on our platform, which we plan to serve with a total of 7 games by the end of 2024. Integration of mobile and web games with Prz Games is easily achievable, and it can offer services with various crypto assets. Start now with przgames, which is ready for the future of the gaming industry!

Coin Bouncer : This game offers the opportunity to earn agreed coins and tokens within the game. With a user-friendly interface, our game provides an opportunity for enjoyable time spending. User rankings, token earnings, wallet, and request processes are included.

Hunter Wars : It contains many innovations and features such as specially created maps, inventory usage, in-game purchases, and character selections. In our game, you can earn coins by searching for treasure according to the capabilities of your detectors. Hunter Wars, which offers easy integration with many coins and tokens, can be used on Android and iOS platforms as well as playing with the web version.

Coin Genius : This game, where competition is prioritized, is a question and answer game based on being knowledgeable while having fun. Our game has multiple lifelines available for use. Offering the opportunity to earn tokens with each correct answer, our game also carries the risk of losing tokens with incorrect answers. With the ease of integration with many coins and tokens, it offers services such as earning, purchasing, and competing.

Coin Crusher : Our game, consisting of dozens of levels, offers users a different excitement and entertainment in each level. Winning and losing processes are included thanks to the coin and token integration in our game. With the user ranking feature in its content, our game that creates competition can offer rewards to users.

Metwex Exchange : In the second quarter of 2024, efforts are underway for APEXROM (APR TOKEN) to establish a presence in the global market through exchange structuring. The MetWex cryptocurrency trading platform provides a smart and fast way for you to engage in cryptocurrency trading. You can securely and quickly execute your cryptocurrency transactions on the MetWex trading platform. Our trading platform is designed to fit your preferences and trading styles with customizable alerts, interactive charts, and risk management tools.

Thanks to the constantly evolving Metwex infrastructure focusing on growth and innovations, it can cater to various coin and token structures. The usage of eth, bnb, tron, matic infrastructures is available within the exchange.

Coin Prize : Prize Coin is a cryptocurrency created for mobile games, gambling, and fee coin purposes. It has been produced in a limited quantity of only 2,000,000 coins. Its limited supply and transaction speed offer significant advantages to users. It is affiliated with many gaming platforms. Prize Coin can be used for in-game material purchases as well as entertainment and gambling applications. With the increasing use of cryptocurrency in the evolving world, we invite you to both have fun and earn.

Its infrastructure, designed to cover the fees actively used in cryptocurrencies with Prize Coin, offers a fast and reliable transfer network by making purchases from exchanges.

It has been prepared as a solution that can both meet different needs and respond to different community types, offering both earning and giving opportunities. All these platforms will be available to serve you, and we are proud to offer you these services. The vision and mission of Prize Coin aim to always provide our innovative and valuable Prize partners with more opportunities.

Mobile Applications : We are developing projects with various applications to facilitate our users' transactions. We are working towards increasing our mobile application user base and expanding the use cases of APEXROM (APR TOKEN).

6. APEXROM (APR TOKEN) VOUCHER MARKET

The APEXROM (APR TOKEN) VOUCHER MARKET will offer a structure encompassing e-commerce, tourism, textiles, and technology devices to serve you. We are excited about APEXROM (APR TOKEN) and delighted to share this excitement with you.

7. APEXROM (APR TOKEN) CAFE

In addition to our gaming platforms, partnerships, and exchange developments aimed at creating more spaces for APEXROM (APR TOKEN), we are also ramping up our activities in the CAFE-MARKET sector. Our APEXROM (APR TOKEN)-CAFE MARKET concept aims to create a network based on technology-compatible products and cafe concepts, focusing on production and consumption balance.

8. APEXROM (APR TOKEN) ADVERTISING SERVICE

With the APEXROM (APR TOKEN) advertising service, we plan to serve hundreds of thousands of users with an "watch ads, earn rewards" platform that allows users to download the apr application for free and earn rewards by completing daily tasks. While planning to generate revenue through advertising agreements with global and local companies, we aim to create consumption areas within the ecosystem.

9. WEBSITE AND SECURITY

Security is our top priority for all investors and users within our ecosystem. All personal data is protected using special encryption methods and backup security measures.

10. SOCIAL RESPONSIBILITY

Expanding the areas of use, we fulfill our social responsibility through our activities. Our goal is to create a perfect future with an ecosystem focused on adding value, thanks to the support of our investors.
