

WELCOME TO THE APEXROM (APT TOKEN) ECOSYSTEM

www.apexrom.com

APEXROM (APT TOKEN)

APEXROM (APT TOKEN), a newcomer to the coin sector, has entered the market with a focus on addressing existing problems and offering solutions. As a next-generation platform, our goals and roadmap are centered around becoming a powerful player in this industry. APT Token aims to foster transparency, sincerity, and a sense of ownership within its community. To counteract inflationary pressures within the APT Token ecosystem, both existing and future platforms have prioritized the following:

Burn mechanisms:

Implementing burn strategies across all platforms to reduce the circulating supply of tokens.

Utility and consumption:

Developing platforms that offer tangible utility and encourage token consumption.

Sustainability:

Prioritizing long-term sustainability to ensure the token's enduring value.

04

APEXROM (APT TOKEN) INFLATION PREVENTATION AND BURN STRATEGIES

APT Token offers an ecosystem designed for consumption and usability across all its platforms. Constructed on the Polygon network, APT Token has a continuous burn program, ensuring a decreasing supply and preserving its value over time.

05

APEXROM (APT TOKEN) USAGE AREAS

MEGA LAUNCHPAD Platform

Our MEGA LAUNCHPAD platform offers our community the opportunity to purchase tokens and coins of upcoming projects that are pioneering in the mining industry, at pre-sale or discounted prices.

STAKING PLATFORM

Our platform allows for staking of APT tokens, as well as other agreed upon or previously agreed upon coins and tokens.

OPEN MARKETPLACE PLATFORM

Voucher Product Marketing and Promotion System

Trading signal systems

Game Ice Analytics Platform

E-commerce Integrations (Open Marketplace)

Technology Product Integrations

Our Open Marketplace platform provides individuals with the opportunity to showcase their expertise and skills on a global platform. Additionally, it offers a dream-like marketplace where you can market and earn from a variety of products and services, including a satisfied customer referral system and influencer loyalty recommendation system.

TELEGRAM AIRDROP PLATFORM

Telegram hosts a vast global crypto community. This messaging platform is popular among crypto enthusiasts, traders, investors, and blockchain professionals. Telegram provides a convenient and secure way to communicate, share information, and build communities around various cryptocurrency projects, ICOs, blockchain news, and trading...

Numerous cryptocurrency projects leverage Telegram as their primary communication channel with their communities. Users can stay updated on announcements, discuss important news, and exchange insights. Additionally, numerous cryptocurrency-related groups and channels provide a platform for users to share opinions, analyses, and engage in discussions about the latest market trends and other relevant topics.

Telegram is also a hub for discussions related to cryptocurrencies, ICOs, new projects, and blockchain technologies. Numerous crypto news and updates are disseminated through Telegram channels, making it a valuable resource for staying informed.

Furthermore, Telegram serves as a platform for in-depth discussions on various aspects of cryptocurrencies and blockchain technology. It hosts events such as AMAs, webinars, and other community-driven activities related to the cryptocurrency industry.

Mini-apps provide an excellent means of attracting a mass audience to cryptocurrency. As small, easily embeddable programs or applications, mini-apps offer a user-friendly introduction to the world of digital assets.

TELEGRAM AIRDROP PLATFORM

A variety of messaging apps, social networks, and web platforms provide users with convenient and easy access to numerous services and functions, enabling quick access to a wide range of capabilities.

There are numerous advantages to utilizing mini-apps as a means of attracting audiences to the cryptocurrency realm.

Firstly, mini-apps offer a powerful tool for engaging with users and providing them with information about cryptocurrencies, ICOs, blockchain, and other facets of the cryptosphere.

Additionally, mini-apps can provide access to a variety of services such as cryptocurrency wallets, crypto games, crypto exchanges, and other useful tools

Secondly, mini-apps can be utilized for marketing campaigns, contests, giveaways, and other initiatives designed to encourage user engagement and participation. The ease of use and accessibility through various platforms, coupled with their features, aid in both acquiring and retaining a wider user base.

Lastly, mini-apps can contribute to increased transparency and security in user interactions, while simultaneously providing convenient and secure exchange methods.

Consequently, the utilization of mini-apps can significantly simplify and enhance mass interaction. By providing easy access to a wide audience within the cryptocurrency sphere, mini-apps offer a diverse range of services and information regarding cryptocurrencies.

We are developing a platform for crypto games on Telegram and are confident in attracting millions of users. We aim to introduce our entire ecosystem to these users and provide them with opportunities to select earning plans that suit them within all our platforms.

APEXROM TELEGRAM (APT GAME BOT) GAMEPLAY AND EXPLANATION

Apexrom Game Bot is a project that allows players to feel like the CEO of a company. The largest cryptocurrency exchange, which you can choose from, becomes the player's ownership of the project.

Tasks are completed to earn points displayed on the screen (within the bot) by working every two hours, and these points are converted into tokens, which are then traded on a real exchange.

The main plus is that you don't need to be online all the time and click on the screen. You have passive income every two hours - by purchasing specific cards, you can pump up a parameter like this for yourself.

Additionally, there is a referral system in place to help you increase your earnings. Earn more points with referral bonuses and receive a portion of your referrals' earnings every two hours. With more referrals, you can continue to receive a portion of the earnings of an increasing number of players. It's a fantastic passive income system where you can earn from up to three generations of referrals.

APEXROM TELEGRAM (APT GAME BOT) GAMEPLAY AND EXPLANATION

Don't forget to claim your daily bonuses to earn additional rewards. The task system and daily login make the overall gameplay more convenient. Claiming your daily reward takes only a minute and involves a simple task. Additionally, be sure to track your referrals and collect more points through referral links. (Subscribe to the channel, join the chat) – it takes no more than five minutes

All of these features foster a strong user engagement. As you level up, you'll have opportunities to earn real rewards. You can immediately sell these extra earnings and rewards for APT tokens on exchanges.

We offer an exciting opportunity to generate passive income. Remember, communities are built on personal recommendations.

In-game upgrades will be made with APT points and, occasionally, APT tokens. Each level up rewards you with real APT earnings and passive income. We aim to make leveling up and progressing in your career more exciting. Enjoy earning within the Telegram mini-app and share the joy of earning with your community.

MOBILE GAME PLATFORM

The future of the gaming industry is increasingly centered around mobile games. Mobile gamers now constitute a massive audience, and the mobile gaming industry is the fastest-growing segment of the global gaming market.

The video game market experienced significant growth in 2023, generating a revenue of \$249.60 billion. With a projected annual growth rate of 9.32% starting from 2023, the market is expected to reach \$389.70 billion by 2028. This steady trend indicates a growing demand for video games in the coming years.

One of the primary reasons for the rapid growth of mobile gaming is its accessibility. With smartphones and tablets becoming integral parts of our daily lives, mobile games offer convenient and on-the-go gaming experiences. The diverse range of genres and formats ensures that there's something for every player to enjoy.

Mobile games also provide unique opportunities for social interaction with friends and others. Global players can connect through online and multiplayer modes, enhancing the overall gaming experience. The future of mobile gaming is closely tied to ongoing technological advancements.

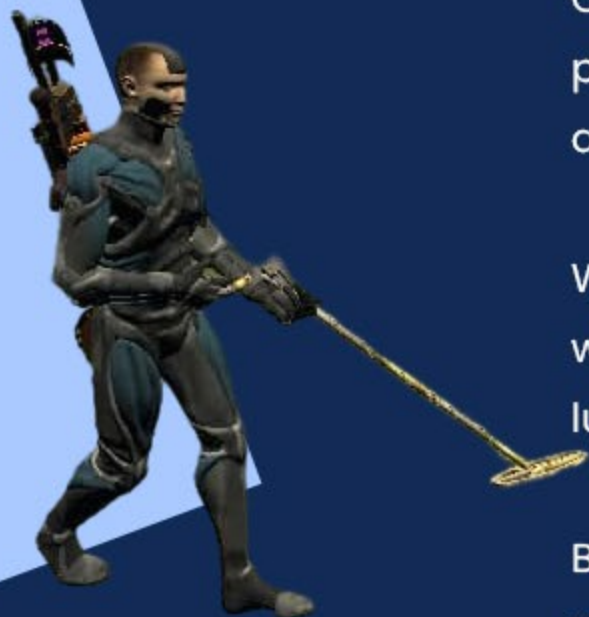

It will become a significant destination for entertainment and leisure in the digital world.

Clicker and incremental games are emerging as popular game genres, captivating players of all ages. Unlike traditional games, the core mechanics of these games revolve around repetitive clicking or gradually increasing production over time.

Within the Apexrom ecosystem, not only APT tokens but also multiple coins and/or tokens will be available for airdrop services. This exciting and entertaining ecosystem offers lucrative opportunities.

By merging games, the metaverse, NFTs, and play-to-earn mechanics, the gaming platform aims to expand its network and increase its usability within Web3 spaces. Prz Games operates on a play-to-earn model, requiring no upfront payments. Users can enjoy the platform on both Android and iOS devices and can freely sell their in-game earnings or utilize them within the platform's services.

The gaming platform enables seamless integration of mobile and web games, offering services with various crypto assets.

CURRENTLY RELEASED MOBILE GAMES

Coin Bouncer

It offers users the opportunity to earn partnered coins and tokens within the game. With its user-friendly interface, our game provides an enjoyable experience. It includes features such as user rankings, token earnings, wallets...

Hunter Wars

Our game offers a wealth of innovative features such as custom-made maps, inventory management, in-app purchases, and character selection. Players can discover hidden treasures and earn coins using detectors with unique abilities. Hunter Wars seamlessly integrates with various coins and tokens and is available on Android, iOS, and web platforms.

Coin Genius

Coin Genius is a question-and-answer game designed to make learning fun while fostering a competitive spirit. The game offers multiple joker options and rewards players with tokens for correct answers. However, incorrect answers can result in token losses. It supports integration with various coins and tokens, providing services such as earning, purchasing, and competition.

CURRENTLY RELEASED MOBILE GAMES

Coin Crusher

Coin Crusher offers players a thrilling and diverse gaming experience across numerous levels. Featuring integrated coins and tokens, players can earn or lose rewards. The game fosters a competitive spirit through user rankings and rewards top performers.

Raffle Systems

Our Raffle and Entertainment Platform is designed as a use case for APT tokens, along with other partnered tokens and coins, within the realm of chance and entertainment games.

Mobile Applications
